Industrial Cooperation Days in Defense & Aerospace (ICDDA)

6th Industrial Cooperation Days in Defense and Aerospace (ICDDA) supported by PRESIDENCY OF THE REPUBLIC OF TÜRKİYE, DEFENCE INDUSTRY AGENCY and organized by OSSA DEFENSE & AVIATION CLUSTER and VIMEET -the world leader in targeted lead generation, bringing to the community more than 700,000 leads every year TURKEY as the organization partner and with the contributions of SUPREME TECHNOCRAFT AVIATION SERVICES and will take place in ATO Congressium Exhibition Center, Ankara between April 17-19, 2024.

ICDDA is an outstanding supply chain oriented business event for contractors and suppliers to meet through pre-scheduled business meetings to discuss partnerships and/or business opportunities.

ICDDA offers defense and aerospace companies the opportunity to identify and request meetings with relevant prospects. ICDDA provides pre-scheduled meetings for all the attendees based on their own choices.

ICDDA offers a must-attend-conferences program. These are excellent opportunities for professionals to share experiences and better comprehend the market's scientific, industrial, technical and commercial evolution.

4 reasons to attend ICDDA 2024

1. **Introduce your projects and exchange with key players** in defence and aerospace, government decision-makers, international companies, institutions, startups, investors...
2. **Develop your network with the entire value chain** by meeting prospects that you will not find anywhere else: 70% of the targeted decision-makers never go to trade shows.
3. **Discover the latest innovations in the industry** and stay abreast of new market developments and regulations.
4. **Benefit from highly targeted business meetings**, thanks to an AI that will always suggest you as best as you expect

Why attend ICDDA 2024 ?

OEMs and contractors will meet suppliers offering special skills and services for civil and defense applications. These diversified programs reveal business and investment opportunities in the country.

Save time and meet the key players in just 3 days!

+ 300
Decision makers

+ 7500

Workshops

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ICDDA 2022 PRELIMINARY LIST

3EN SAVUNMA --- (TÜRKİYE)

www.3ensavunma.com.tr

Cabling design and manufacturing capability for all systems used in the Defense Industry. R&D Center Services, Cabling Design, Cabling Production, Cabling Integration to Systems, Electro-Mechanical Assembly, Mechanical Design, Cabling Tests.

ACA METAL --- (TÜRKİYE)

www.acametal.com.tr

ADIL ENTERPRISES --- (PAKISTAN)

www.adilenterprises.org.pk

Adil Enterprises is your worldwide solution for providing the highest quality of products to consumers and clients. Our company specializes in security items, scientific laboratory equipment, electrical components, appliances, office supplies, digital & offset printing, IT solutions, and general household goods. We are accustomed to high demand, providing the solutions for governmental organizations, as well as the private sector. It is due to our dedicated staff, equipped with the latest technology, that we are held in high regards with each of our clients and customers. We are active member of Chamber of Commerce & Industry, also registered with Security and Exchange Commission of Pakistan which proves our credibility.

ADR --- (FRANCE)

www.adr-alcen.com

ADR currently offers the following products: High precision ball bearings, Integrated ball bearings, Sub-systems, Precision actuators. They meet the most demanding specifications in a wide range of areas where high accuracy and high sensitivity are mandatory.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

AGENCIJA ALAN --- (CROATIA)

www.aalan.hr

Small Arms, Assault Rifles, Sniper Rifles, Multiple Grenade Launchers, Submachine Guns, Mortars and Mortar Bombs, Multiple rocket Launchers and Rockets, Optical Sights, Electronic Equipments, Helmets-Boots-Ballistic Vests-Uniforms, Tactical Radio SDR Technologies, Demining, Firefighting, APC Vehicles & Tanks, Naval Equipments, Military Equipments, LED Lighting Systems-Explosive Protected, Geoinformation Systems, Mobile Anti-Ship Missile Systems, Secure Communications, Military Rations Supplements.

AIRBUS ---(FRANCE)

www.airbus.com

Airbus is a global pioneer in the aerospace industry, operating in the commercial aircraft, helicopters, defence and space sectors.

ALFA-BETA --- (TÜRKİYE)

www.alfabetamakine.com

Mechanical production for civil and military aviation platforms, production and assembly of mechanical parts for land platforms. Machining, assembly, machine design.

ALKAN MAKİNA --- (TÜRKİYE)

www.alkanmakina.com.tr

Machining, milling, turning, probing, CMM reports. Mechanical parts manufacturing by machining and cold forming method in defense and aviation industry.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ALP HAVACILIK --- (TÜRKİYE)

www.alp.com.tr

Alp Aviation, together with its efficient supply chain demonstrate extensive experience in machining and processing of titanium, nickel, aluminium, steel, stainless steel, copper alloys and super alloys. Alp Aviation manufactures Helicopter Dynamic Parts & Assemblies, Helicopter Tail Rotor Drive Shaft System (TRDS) Parts & Assemblies, Dynamic & Static Engine and APU Parts including jet engine Fan and Compressor Integrally Bladed Rotors, Landing Gear Parts & Assemblies, Structural Parts & Assemblies, Hydraulic and Fuel Systems and Tube Assemblies to the world's aviation giants such as Lockheed Martin (Sikorsky, LM Aero), Raytheon Technologies (Pratt & Whitney, Pratt & Whitney Canada, Collins Aerospace), Honeywell, Boeing Türk Havacılık ve Uzay Sanayi (TAI), TEI and Aselsan.

ALTEK METAL --- (TÜRKİYE)

www.altekmatal.com.tr

Air defense systems, aircraft seat, yachting, machining, plastic mold injection. Full plate, cut plate, profile, machining.

ANDAR --- (TÜRKİYE)

www.andar.com.tr

Servo actuators, pan tilt systems for manned and unmanned aerial vehicles and guidance systems. Servo actuators, servo motors, motor drives.

ANKARA DEVELOPMENT AGENCY (AKA) --- (TÜRKİYE)

www.ankaraka.org.tr

Ankara Development Agency, which aims to activate local potential based on participation, prepares Ankara-oriented regional plans within the framework of national development goals and provides financial and technical support to the projects developed for the main goals and priorities determined in these plans.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

APPLIED RESEARCH AND DEVELOPMENT ORGANIZATION --- (LIBYA)

www.ardo.gov.ly

The Applied Research and Development Organization - ARDO is a government owned institution under the ministry of defense of the Libyan state. The message of ARDO is to build a research base in the field of defense technologies, its engaged in developing defense technologies such as electronics, UAV, missiles, materials, command and control systems, computer algorithms guidance and autopilot. Also providing consulting services and support to the Libyan MOD and all other army sectors.

AREL --- (TÜRKİYE)

www.arel.com.tr

Designed and firstly manufactured of Ground Power Units (GPU), mobile floodlight towers, high frequency electric motors, AC & DC alternators and generators, diesel welding generators, frequency converters and converter type concrete vibrators in Türkiye and carry out domestic manufacturing.

ARITES --- (TÜRKİYE)

www.aritesmetal.com

Fuel and explosive manufacturing and casting line, cartridge production line, explosive recycling line, heavy weapons. Services: project, design, manufacturing products: pressure equipment, autoclave, reactor, production line, test cabinet, process tank, fuel and explosive line machines, gun carrier platform, heat exchangers.

ARTI ELEKTRONİK --- (TÜRKİYE)

www.artielektronik.com.tr

Electronic, mechanical and software design, prototype and serial production. Power distribution units, power converters.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ASELSAN --- (TÜRKİYE)

www.aselsan.com.tr

ASELSAN is the largest defense electronics company of TÜRKİYE whose capability/product portfolio comprises communication and information technologies, radar and electronic warfare, electro-optics, avionics, unmanned systems, land, naval and weapon systems, air defence and missile systems, command and control systems, transportation, security, traffic, automation and medical systems.

ASPİLSAN --- (TÜRKİYE)

www.aspilsan.com

Batteries, chargers, aircraft/helicopter batteries, energy storage systems, electric/hybrid vehicle batteries. Radio batteries, weapon system batteries, thermal system batteries, robotic batteries, medical batteries, battery blocks, aircraft batteries, helicopter batteries, battery cells, unmanned aerial vehicle batteries, chargers, energy storage systems, smart batteries, engineering services.

ATEQ AVIATION --- (FRANCE)

www.ateq-aviation.com

ATEQ Aviation is a worldwide manufacturer of automated testers for all types of aircraft. In order to assist aviation manufacturing and maintenance, ATEQ has developed a complete range of products and customized hardware and software solutions, adapted to all industry requirements: pneumatic, electric and electronic safety system tests.

ATI MATERIALS --- (USA)

www.atimaterials.com

We are a technology-driven, critical supplier to key aerospace and defense customers, focused on maximizing aero engine and airframe growth opportunities. Well-positioned to meet end-market demand growth, HPMC produces titanium-, nickel-, cobalt-based alloys and other specialty metals in long product forms, precision forgings, and machined components. This business segment includes Forged Products and Specialty Materials, with a high percentage of material pull through.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ATİKER YAZILIM --- (TÜRKİYE)

www.atikeryazilim.com.tr

AtikER system integrator, AtikİM manufacturing management systems, AtikİK human resources management system, AtikEBelge e-government solutions, AtikON sectoral applications and special solutions, AScada production data collection automation, atikBI mobile business intelligence and reporting application.

ATLS PVT LTD --- (PAKISTAN))

www.atls.com.pk

We have facility for the manufacturing of Aerospace and Defense parts. Our Patented Environmental Control System (ECS), Electric Trim System for Rudder & Elevator, Switch & Circuit Breaker Panels for Super Mushshak aircraft is flying in many countries of the world.

ATOM TEKNİK --- (TÜRKİYE)

www.atomteknik.com.tr

Mechanical manufacturing for defense industry, production support for special apparatus and mass production parts. Machining for defense industry, design and production of test equipment for cement plants.

AUCOTEC AG --- (GERMANY)

www.aucotec.com

We develop engineering software for the complete life cycle of machines, plants and mobile systems. AUCOTEC's solutions range from flow diagrams via process control and electrical engineering for large-scale plants to modular harness design in the automotive industry. AUCOTEC achieves the interconnection of corporate processes with its unique data-centered cooperation platform.

AVAS METAL --- (TÜRKİYE)

www.avasmetal.com.tr

As the preferred company in Alloyed Aluminum, Stainless Steels, Colored Metals and Engineering Plastics products, we provide the best service to our customers.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

AVIATION MRO PVT. LTD. --- (PAKISTAN)

www.aviation-mro.com

Aviation MRO has long experience of supporting multi-faceted requirements of all Factories of Pakistan Aeronautical Complex (PAC) Kamra. Our Line Card includes Aerospace Materials, Special and Common Small Hardware, Replacement Parts for trainer and Military aircraft, CNC Machine Tooling, Cutting Tools (mainly End Mills, Drills) and Inserts, and Aviation Grade Chemicals. Dealing in Exclusive Aerospace and Defence sector only, our capabilities cover products of all OEMs across the globe.

AVIET TECHNIC --- (MALTA)

www.aviet.org

Aviet Technic supports its customers with high quality logistics services with a very strong network. We provide among others: 24/7 Support service, Customs Clearance, Aircraft parts purchase & sale, Aircraft leasing support, Technical training programs.

AZERBAIJAN NATIONAL AEROSPACE AGENCY --- (AZERBAIJAN)

www.nasa.az

Azerbaijan National Aerospace Agency is a governmental body that coordinates all Azerbaijani space research programs with scientific and commercial goals.

BASDEC --- (TÜRKİYE)

www.basdec.org

To ensure that all kinds of systems needed by the Civil Aerospace and Defense industry are produced at the highest possible localization rate by collaborating with the resources of BASDEC member companies.

BELL HELICOPTER --- (USA)

www.bellflight.com

BELL manufactures military rotorcraft and commercial helicopters.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

BISHKEK STAMPING PLANT --- (KYRGYZSTAN)

www.bsp.kg

High demands on the quality of components, compliance with technological processes, strict control of product parameters. Application of automated equipment, reduced to the bare minimum-"human factor", high quality, confirmed by international shooting competitions, rave reviews foreign hunters.

BOEING ---(USA)

www.boeing.com

As a leading global aerospace company, Boeing develops, manufactures and services commercial airplanes, defense products and space systems for customers in more than 150 countries. As a top U.S. exporter, the company leverages the talents of a global supplier base to advance economic opportunity, sustainability and community impact. Boeing's diverse team is committed to innovating for the future, leading with sustainability, and cultivating a culture based on the company's core values of safety, quality and integrity.

BOSAN --- (TÜRKİYE)

www.bosan.com.tr

Since its establishment, Bosan has expanded its customer and product portfolio programmatically by using advanced technology systems, and today it continues its services for the aviation, space and defense industries in line with the demands of its customers with its fully automatic metal coating system, state-of-the-art painting booths and drying ovens.

BSI GROUP--- (TÜRKİYE)

www.bsigroup.com/tr-TR

BSI is your business improvement partner. We have shaped best practice for over 100 years, helping organizations around the world embed excellence, build competence and capability for sustainable growth.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

BUSINESS FRANCE --- (FRANCE)

www.businessfrance.fr

C.N. ROMARM S.A --- (ROMANIA)

www.romarm.ro

The main producer and direct exporter of military products in Romania, Compañia Națională ROMARM S.A. was established in 2000 through the fusion of the most important factories of the Romanian defense industry. ROMARM is the main supplier of military equipment, ammunition and maintenance services in Romania. ROMARM S.A. produces armored vehicles, infantry weapons and ammunition, medium and large caliber weapons and ammunition, rockets and projectiles, powders and explosives, components.

CES KOMPOZİT --- (TÜRKİYE)

www.ces.com.tr

Personnel protective equipment: ballistic protective helmet, ballistic protective vest, bomb suit, ballistic protective shield, ballistic protective plate platform / vehicle protection systems: additive armor, particle shield (spall liner), stand alone armor, various ballistic composite parts. Defense and aviation: structural & non-structural composite parts for land, air and naval platforms, pal parts, simulator parts, radome solutions, structural missile parts, unmanned aerial vehicle body and wing composite parts.

COMPONEX --- (USA)

www.componex.com

We are preferred supplier to some of the world's best OEMs and contract manufacturers. We specialize in low volume/quick turn/high quality custom wiring harness and shielding manufacturing. We maintain a list of approved suppliers, which includes qualification of their suppliers and systems.

CTRM --- (MALAYSIA)

www.ctrm.com.my

CTRM is part of the global supply chain for major aircraft manufacturers in the world and emerge as Centre of Excellence for Composites and Aerospace with focus on the Wing and Nacelle programs.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

DIGITAL COMMUNICATION SYSTEM (DCS) --- (BANGLADESH)

www.dcsbd.com

Importer for supply of Varieties of Defence stores e,g Arms and Ammunition, F-7, PT-6, K-8, Yak-38, AN-32, C-130 Aircraft and MI-17/171 & Bell-212,206,205 Helicopter Engines and Avionics spares including overhauling , Military Ground communication eqpt like HF,VHF&UHF Equipment including spares ,Radar including spares , Microwave Communication Equipment, Tele Communication Eqpt, Trg Aid Equipment , Precision measuring equipment /Test Equipment, Military Vehicles , Ambulance to Bangladesh Army , Air Force & Navy Police, Bangladesh Border Guard, Bangladesh Police and Rapid Action Battalion (RAB), Bangladesh Ordnance Factory (BOF).

DIT MIDLANDS ENGINE --- (UK)

DMY --- (TÜRKİYE)

www.assanelektronik.com.tr

Our technology and production capacity make us one of the most recognized companies in the market. Our facility which is able to produce at IPC 610 Class 3 Level, possesses the technologies such as Soldering Under N2, Automatic Optical Inspection (3D), Solder Paste Inspection (3D), X-ray, Conformal Coating, Selective Soldering, PCBA Cleaning, Environmental Test Chambers, BGA re-work station and Dry Cabinet.

DORA MAKİNA --- (TÜRKİYE)

www.doramakina.com.tr

We are producing machine-equipment, section and substitute parts whose special materials are metal or non-metal, graphite, plastic, etc. with staffs who are experts in their job in compliance with standards which are requested. We highly pay attention to quality assurance from raw material to the final product delivery with our consciousness about necessities of sectors which we serve and precision of products which are manufactured.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

DÖKSAN ISIL İŞLEM --- (TÜRKİYE)

www.doksanisilislem.com

Carburizing, reclamation, vacuum hardening, low pressure carburizing (LPC), Austempering, induction surface hardening, surface grinding, stress relieving, normalization, plasma nitration, gas nitration, carbonitration, carbon impregnation, aging, softening annealing, aluminum hardening, tempering, blackening (oxidation), sub zero treatment, sandblasting, grinding, quality control laboratory, R&D laboratory.

DSV AIR & SEA --- (TÜRKİYE)

www.dsv.com

Decades of experience mean we are a freight forwarder and logistics company with the highest level of expertise combined with financial stability- today and for generations to come. We offer global and local road, sea, and air freight services, project transport, and logistics solutions.

ELŞİS --- (TÜRKİYE)

www.elsis.com.tr

R&D and device production in power electronics, airport traffic radar system power supply and distribution units, smart portable battery chargers.

EMA SİSTEM --- (TÜRKİYE)

www.emasistem.com

Armored vehicle fire extinguishing systems, explosion suppression systems, helicopter fire extinguishing systems, electronic circuit board design.

EMGE --- (TÜRKİYE)

www.emge.com.tr

Machining, plastic injection, plastic injection mold design and manufacturing, manual control units, drum-type slip rings, solenoid production, panel type measuring instruments, current transformers, safety equipment production

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

EMT --- (TÜRKİYE)

www.emt.com.tr

Component storage and firing in electronic typesetting lines, production of evidence analysis devices for criminal laboratories. Embedded software and electronic card/board design, industrial product design, cabling and mechanical assembly.

EPTA --- (TÜRKİYE)

www.epta.com.tr

EPTA is a leading company in white appliances, automotive and metal industry with high capability and experience on research. Products of EPTA are produced new, alternative and scientific technologies. EPTA is offering its partners strong, sustainable, competitive cooperation by being highly sensitive to environment and persistent to contribute on global employment and representing the Turkish engineering and labor with honesty in trading all over Europe and World.

ER MAKİNA --- (TÜRKİYE)

www.ermakina.com.tr

Design and manufacturing of the aircraft and land vehicle engine gearboxes, aerospace quality gears and gearbox manufacturing, high speed gearbox manufacturing, low backlash planetary gearbox manufacturing (rotary actuators).

ERER SAVUNMA --- (TÜRKİYE)

www.ersavunma.com.tr

Due to the importance our country has given to the Defense Industry; Since 2015, with the name of Erer Savunma Sanayi A.Ş. R&D studies have started in the field of IR (Infrared) Camouflage Paint production, which is needed by our country and used in various warfare tools and equipment. With the R&D studies we have done since our establishment, we have been able to report the production of IR Paint in US and NATO Standards and offer it to the service of our country's Defense Industry Firms.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ESSETI CIRCUITI --- (ITALY)

www.circuiti-stampati.com

Esseti Srl produces and imports printed circuit boards (PCBs) for consumer, industrial and power electronics, broadcasting, lighting, electro-medical, automotive, aeronautics and military.

EST --- (TÜRKİYE)

www.estyuzeykaplama.com

EST operates in the fields of cleaning the surfaces of metal parts such as aluminum, steel, stainless steel and brass, coating with chemical processes, painting with wet paints and cerakot, marking and protecting them with dry film lubricants.

EUROTEC --- (TÜRKİYE)

www.eurotec-ep.com

Eurotec, a competitive compounder of engineering thermoplastics, provides opportunities for success on the base of reliable partnerships with its flexible, fast and tailor made solutions.

FAYMER --- (TÜRKİYE)

www.faymer.com

Precise machining for defense and aerospace industry, CNC machining and cold forming.

FNSS --- (TÜRKİYE)

www.fnss.com.tr

FNSS is a globally recognized land systems company that specializes in designing and producing wheeled and tracked armoured combat vehicles as well as combat engineering vehicles, turrets and sustainability solutions. As the preferred solution provider of users in various countries, the Company has delivered thousands of armoured combat vehicles worldwide.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

FOCUS TECHNOLOGIES PVT. LTD. --- (PAKISTAN)

www.focustechpvt.com

Focus Technologies is engaged in projects with Pakistan Air Force, Army, Navy, Pakistan Aeronautical Complex Kamra, Pakistan Ordnance Factories Wah, NUST, Bahria University besides numerous private concerns. The strength of the Company lies in Optical Fiber Cable network solutions, Security Solutions, including CCTV / IR / Thermal Perimeter / Area Surveillance, Intrusion Detection, Ground Surveillance Radars, Access Control Solutions, Including Entry / Exit Control, Under Vehicle Surveillance Systems, Gates, Detectors etc. The Company also deals in UAV Surveillance Solutions, OFC Network Security / Intrusion Detection and Cyber Security.

FOTONİKS A.Ş. --- (TÜRKİYE)

www.fotoniks.com.tr

Opto-mechanical design, opto-electronic design, optic and electro-optical equipment maintenance and repair, electro-optic equipment update, environmental tests, production, laboratory tests of electro-optic equipment, research feasibility tests, usage training of electro-optic infrared equipment, thermal trace characterization.

FUNDILUSA --- (PORTUGAL)

www.fundilusa.com

Ever since it was established in 1989, Fundilusa has never stopped growing: its propellers are now sailing all over the world. Just in its first decade of the 21st century, its turnover increased eight fold. With an annual capacity of 900 propellers, 1,800 blades and 250 hubs, caps, covers and other components, the company has succeeded in establishing a position for itself as a leader in the marine industry for a broad type of solutions for FPP and CCP systems.

GALENTECH --- (TÜRKİYE)

www.galen-tech.com

We are Turkey's domestic test cell, dynamometer and test systems manufacturer. We manufacture all the devices used in the test facility, establish turnkey test and validation facilities and export them to many countries.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

GLOBAL RESOURCES --- (PAKISTAN)

www.globres.co.uk

Development/Production of Automated Engine & Accessories Testing Systems, Aviation & Aircraft Spares, Aviation Chemicals, Paints, Sealants, Lubricants & Adhesives, Aircraft GSE & MSE & Tooling, Aircraft Lease, Purchase, Consultancy & Procurement Services, Global Partners, Spires Aviation UK, MAXCON Group Canada, AAT FZE UAE, AMPCRAFT USA.

GORA MAKİNA --- (TÜRKİYE)

www.goramakina.com

Mechanical production and installation for civil aviation industry and defence industry for naval, land and air platforms.

GÜLSAN --- (TÜRKİYE)

www.gulsangrup.com.tr

Machining, sheet metal processing (laser cutting, bending, molding processes), welding, assembly.

GÜRİŞ --- (TÜRKİYE)

www.guris.com.tr

GÜRİŞ produces various types of forging components with different sizes, weighing between 1 kg-400 kg by making efficient use of its modern technology and equipment such as heavy hammers and presses as well as heat treatment, quality testing and high technology machining equipment.

GÜRMETAL --- (TÜRKİYE)

www.gurmetal.com.tr

Aluminum, steel and stainless steel, titanium and nickel-based super alloy materials and precision casting, engineering, mold / fixture / apparatus design and production, rapid prototype production, machining, nadcap approved NDT and laboratory testing services.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

GÜVENAL --- (TÜRKİYE)

www.guvenal.net

In our production facilities equipped with high technology machines and 45 years of sector experience; we manufacture Die & Mould Components, Shaped & Keyhole Punches, and Mould Bases & Die Sets.

HARİTAEVİ --- (TÜRKİYE)

www.haritaevi.com

Haritaevi develops engineering solutions and provides services to various branches of aviation Industry. Especially focused on aviation safety and aeronautical data management. The company has been developing software solutions since 2006 and focused solely on aviation industry since 2014. The company works on airport masterplans, airport standards (ICAO Annex 14, EASA), obstacle management, eTOD, AIXM, AIM, e-AIP, passenger movement simulation, analyzing the PANS-OPS surfaces, OLS creation, AMDB, risk analysis and web-gis.

HARP SAVUNMA --- (TÜRKİYE)

www.harp.com.tr

Harp Defence Systems, Inc. (Harp) offers reliable and timely solutions as a single source, drawing upon its 3D design capabilities, its structural analysis with finite element analysis and computational fluid dynamics capabilities, and its deep experience in electronic cooling techniques. It also designs electronic device cabinets and test systems, and carries out the mechanical design of unit-based electronic systems (LRU / Line Replaceable Unit) and cards / modules (SRU / Shop Replaceable Unit).

HAVELSAN --- (TÜRKİYE)

www.havelsan.com.tr

Aside from being accepted as one of the largest and leading technology firms of Turkey, focused on software-intensive systems, HAVELSAN is offering and putting at the disposal of the Turkish Armed Forces (TSK), public administrations and entities, overall private sector and its own international customers its solutions comprised of genuine and original products and systems in the following fields: Defense, Simulation, Information and Communication, Homeland Security and Cyber Security.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

HEZARFEN --- (TÜRKİYE)

www.hezarfenaero.com

Our team, specializing in fabrication of aerostructures, has the capability to manufacture a wide range of products, from sub-assemblies to components. Hezarfen Aero delivers 150.000 sub-assemblies/year to TAI for Boeing 737, 747 and 777 airplanes.

HUKD --- (TÜRKİYE)

www.hukd.org.tr

We are working with all our enthusiasm and with an innovative approach to increase the competitiveness of the Turkish Aerospace, Space and Defense Industries including the SME's by developing innovative projects and foster the dynamism of our members by establishing cooperation with domestic and international actors that will foster the integration of our members to the local and global markets.

HÜNEL --- (TÜRKİYE)

www.hunelkalip.com

Hünel Kalıp, which manufactures sheet metal forming molds for the automotive industry, has also been carrying out design and production manufacturing processes for the Turkish Aerospace and Defense Industry since 2015.

HYUNDAI ROTEM --- (SOUTH KOREA)

www.hyundai-rotem.co.kr

Our Defense Solutions Division delivers Korea's ground weapon systems and has actively contributed to timely deployment of the latest ground weapon systems over the past 40 years. Our success has earned us the confidence and trust of our customers and plays an integral part in protecting the safety and peace of the people. Furthermore, we have solidified our position as a leader in future weapon systems equipped with cutting-edge core technologies through our own R&D capabilities and production systems for ground weapon systems and optimization and improvement capabilities.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ICTERRA --- (TÜRKİYE)

www.icterra.com

Information & communication technologies, web & mobile, embedded systems, avionics software, cyber security, command and control systems, electronic warfare software, health software and energy software.

IVCHENKO-PROGRESS --- (UKRAINE)

www.ivchenko-progress.com

Ivchenko-Progress is a state design bureau that creates drafts and plans for aircraft engines in Ukraine whose products are widely used in both civil and military aircraft. The bureau is administered by the Ukroboronprom.

İŞBİR ELEKTRİK --- (TÜRKİYE)

www.isbirelektrik.com.tr

Design, development, production, testing activities, certification and logistic support of generators, alternators, converters, generating sets and electrical panels.

KABSAN --- (TÜRKİYE)

www.kabsan.com.tr

Cabling, electromechanical installation, cabling documentation design, mechanical documentation design.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

KAI/KOREA AEROSPACE INDUSTRIES --- (SOUTH KOREA)

www.koreaaero.com

As a total solution provider in aerospace, KAI has been taking leading role in national aviation industry and security with successful development of KT-1 Basic Trainer, T-50 Advanced Jet trainer, FA-50 Light Combat Aircraft, KUH-1 Utility Helicopter and RQ-101 Unmanned Aerial Vehicle. Currently KFX and LAH/LCH program which is future growth engine are under development.

In addition, KAI is extending its scope to space business by participating the development such as Korea Multi-Purpose Satellites, Compact Advanced Satellite 500 and Defense Satellite, as well as Korea Space Launch Vehicle.

KALE ARGE --- (TÜRKİYE)

www.kalearge.com.tr

Production of Turbojet Engines for missiles and unmanned platforms. Expertise in Turbomachinery aerodynamic and mechanical design, Expertise in design and development of engine controls and accessories, Altitude Test System and other turbomachinery / sub-system test rigs.

KALELİ ŞAFT --- (TÜRKİYE)

www.kalelisaft.com

Antenna and waveguide production, molding, design and precision machining.

KARACHI SHIPYARD & ENGINEERING WORKS LTD. --- (PAKISTAN)

www.karachishipyard.com.pk

KS&EW is the only shipbuilding company in Pakistan. It has built numerous cargo ships tugboats, support vessels, naval vessels and submarines. KS&EW is the leader in the fields of Sugar Plants, Cement Plants, Oil and Gas Refineries, LPG Tanks, Barrage Gates and Overhead Cranes.

KAZAKHSTAN ENGINEERING --- (KAZAKHSTAN)

www.ke.kz

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

KOSGEB --- (TÜRKİYE)

KPA --- (TÜRKİYE)

www.kpa.com.tr

Over 45 years of experience, focused on production of metallic aerospace parts production, the KPA is hosting operations that all production needs of modern aviation projects. Incorporating the employment of a competent team of 450 people with a ratio of engineers and technicians reaching 33%, KPA continues to grow with investment activities aimed at the needs of the sector.

KUIPER VENTURES --- (UK)

www.kuiper.vc

The first European NewSpace Seed fund is about to launch. Investing from Pre-seed to Series A while nurturing founders with smart capital and a “getting-our-hands dirty too” mindset because they make it happen.

L3 HARRIS-CALZONI --- (ITALY)

www.l3harris.com

Visual Landing Aids For Helidecks And Helipads, Unmanned Surface Vehicles (USVs) for Minehunting, Launch & Recovery Systems For Surface Combatants, Navigation Radars for Submarines, Submarine Mast Raising Equipment, Weapon Handling Systems and Storage Systems for Surface Combatants, Ageotec Rov Series-A Full Range of Remotely Operated Vehicles, Aircraft Elevators and Ship Lifts for Surface Combatants, Hangar Doors for Surface Combatants, Dynamic Positioning Systems & Auxiliary/MH Propulsion Systems for Minehunters, Snorkel System and Gas Exhaust Valves for Submarines, Unmanned System for Full-Cycle Minehunting.

LEONARDO ELECTRONICS --- (ITALY)

www.electronics.leonardo.com

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

LEONARDO SPA --- (ITALY)

MAGICS TECHNOLOGIES --- (BELGIUM)

www.magics.tech

We are leading digital transitions with radiation-hardened chipsets and machine learning technology in the world's most challenging high radiation environments. Magics has grown into a supplier of reliable, radiation-hardened chips used to provide accurate timing in space applications and to serve vision applications in high radiation scenarios.

MEGE TEKNİK --- (TÜRKİYE)

www.megetek.com.tr

Wire harness design & assembly, electromechanical box build, panel build, R&D projects, rigid flex PCB, power unit design & production, slip ring design & production, electronic card test systems.

MERKAD --- (TÜRKİYE)

www.merkad.net

Since 1986, Merkad Makine has been producing high-precision machine parts for glass mold, aerospace and other sectors in its technological infrastructure facilities where has 3000 m2 closed area.

METEKSAN --- (TÜRKİYE)

www.meteksan.com

The establishment purpose of our company is to develop and produce independent and unique high-tech products and subsystems for the Turkish Armed Forces and other security forces in line with the vision of The Presidency of Defense Industries. The systems and subsystems we produce are used for command control, communication, reconnaissance, surveillance and intelligence purposes; they take part on many platforms, especially for surface and underwater platforms, helicopters, unmanned aerial vehicles and missile systems.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

METÜ TASARIM --- (TÜRKİYE)

www.metutasarim.com

Civil aviation, land aviation platforms mechanical design productions, server cabinets, rack cabinets, panel and electrical panels and R&D, design, prototype and serial production of city surveillance system cabinets.

MFK --- (TÜRKİYE)

www.mfkmakina.com

Design, precision mechanical manufacturing and installation, mold, tool and fixture design and manufacturing.

MICRONOR --- (FRANCE)

www.micronor.fr

MICRONOR is evolving in several areas: Industrial electroplating, the manufacture of hermetic connections according to customer specifications by sealing glass / ceramic- metal and brazing for the aeronautics, space, defense, implantable medical, railway, optical, nuclear, gas, oil and various connector industries.

MICROSOFT- Autonomous Systems --- (USA)

www.microsoft.com

Project Airsim For Aerial Autonomy- Explore Our End-To-End Platform For Safely Creating, Training, And Validating Autonomous Agents Through Simulation To Address The World's Evolving Mobility Needs.

MILSOFT --- (TÜRKİYE)

www.milsoft.com.tr

MILSOFT has technical capabilities and expertise in Command, Control, Communication, Computer, and Intelligence (C4I), Tactical Data Links & Messaging, ISR and Image Exploitation Systems, Electronic Warfare, Training & Simulation, Embedded Systems, Cyber Security and Information Technologies.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

MINISTRY OF DEFENSE OF THE REBUCLIC OF AZERBAIJAN --- (AZERBAIJAN)

www.mod.gov.az

The ministry is responsible for keeping Azerbaijan defended against external threats, preserving its territorial integrity, waging war on behalf of Azerbaijan and the surveillance of the Azerbaijani sector of the Caspian Sea and airspace.

MINISTRY OF DEFENSE OF TURKMENISTAN DEPARTMENT OF AMMUNITION --- (TURKMENISTAN)

www.milligosun.gov.tm

MINISTRY OF DEFENSE OF TURKMENISTAN DEPARTMENT OF ARMORED VEHICLES --- (TURKMENISTAN)

www.milligosun.gov.tm

MINISTRY OF EMERGENCY SITUATION --- (AZERBAICAN)

MINISTRY OF NATIONAL DEFENSE --- (TURKEY)

www.msb.gov.tr

The Ministry of National Defense is a government ministry office of the Republic of Turkey, responsible for coordinating and supervising all agencies and functions of the government concerned directly with national security and the Turkish Armed Forces.

MSB ASFAT --- (TÜRKİYE)

www.asfat.com.tr

ASFAT, active in both the operations area and defense industry, is a project management company that is highly capable of creating result-oriented solutions based on requests in a wide range of areas.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

MSB GENERAL DIRECTORATE OF SHIPYARDS --- (TÜRKİYE)

www.msb.gov.tr/TGM

As TGM, our existing warships and coastal troops with 3 Shipyards, we are fully performing our duties on maintenance, repair, construction, modernization and technical support.

MSB MILITARY FACTORIES GENERAL DIRECTORATE --- (TÜRKİYE)

www.msb.gov.tr/Afgm

Maintenance, repair, supply, etc. of the forces. It was established in order to reduce the responsibilities of the Force Commands in their fields of activity and to focus on the operational issues. In addition, it is aimed to integrate the possibilities and capabilities of our military factories with the domestic industry, and to bring the capacity in these factories into the economy without hindering the duty of supporting the TAF, which is the main duty of the factories.

MSN AQREQAT INDUSTRIAL ASSOCIATION MMC --- (AZERBAIJAN)

www.mdi.gov.az

www.mdi.gov.az

MSN ÜFÜQ INDUSTRIAL ASSOCIATION MMC --- (AZERBAIJAN)

www.mdi.gov.az

MSN AVIA-AGREGAT PLANT MMC --- (AZERBAIJAN)

www.mdi.gov.az

The plant is a specialist in manufacture of aggregates for application in aircraft construction industry, cylinder & spherical high-pressure cylinders, airborne & galley equipment for civil aviation, tools & tooling, consumer goods, household appliances.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

MYLASER --- (TÜRKİYE)

www.mylaser.com.tr

MYLASER was established in 2008 to operate in the fields of electro-optic and opto-mechanical system design with its team, which has worked in many projects of the defense industry. The R&D activities that started with infrared laser systems; were followed by R&D studies related to the design, production and testing of mechanical, electronic and optical systems.

MZD --- (TÜRKİYE)

www.mzd.com.tr

MZD aims to design and produce the cable equipment required by the Defense Industry and Private Sector and respond to the electromechanical installation needs with the founder's experience of more than 20 years in the Turkish Defence Industry.

NAQCODE TECHNOLOGIES --- (PAKISTAN)

www.naqcode.com

NaqCoDE Technologies specializes in design, analysis & optimization of aerial and ground platforms with multi disciplinary specialist teams in aerodynamics, structures, propulsion, systems engineering, flight dynamics & flight controls disciplines. Our aim is to provide industry solutions using computational engineering solutions reducing the need for experimental testing and increasing confidence in predictability of computational design tools.

NAVİST --- (TÜRKİYE)

www.navist.com.tr

NAVİST Engineering provides engineering simulation and product development services to almost every industry branch from defense and aerospace to process and energy sectors with its staff specialized in Computational Fluid Dynamics (CFD), Structural Analysis, Advanced Optimization Techniques and Mechanical Design.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

NOVA POWER --- (USA)

www.novapower.com

NOVA Power Solutions provides power conditioning and battery backup solutions for Military, Port Authority, Oil and Gas, Mining, Industrial applications and Specialty Vehicles. Our systems include: Shipboard, Rackmount Uninterruptible Power Conditioners, Field-deployable Rugged and Industrial-Grade Uninterruptible Power Supplies (UPSs) and Inverters, Alternative Wind and Solar power solutions. All of our products are tailor-made for the world's harshest environments and meet some of the toughest standards for Shock, Vibration, Electro-Magnetic Interference (EMI) and more.

OPTOKON --- (CZECHIA)

www.optokon.com

OPTOKON a.s. is a leading global producer and supplier of premium active and passive fiber optic components specializing in fully tested integrated data network, FTTx, and tactical military solutions. Our components and solutions can be found in applications in businesses, communities, and armed forces throughout the world.

ÖZEN İŞ MAKİNA --- (TÜRKİYE)

www.ozenismakina.com.tr

Özen İş Makina manufactures molds, mold accessories and spare parts for the glass sector in the production facility established in 5000 m2 area in Mersin-Tarsus Organized Industrial Zone with its 46 years knowledge and experience. It produces single-piece, double-piece, 3 and 4-piece engraved molds for Press – Press & Blowing Spin – IS processes of glass-making producers and continues its presence in domestic and international markets. It is also an approved supplier of glass manufacturers which are world leaders in the industry. In addition to its main activities in mold manufacturing, Özen İş Makina also manufactures precision machining parts for machine, offshore and energy sectors as serial production and according to customer's specifications by using its mold making know-how, experience and ability.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ÖZİSMAK --- (TÜRKİYE)

www.ozismak.com

We are an engineering company that produces many products with the SMZ brand on different subjects and produces special solutions for the needs of companies, as well as forklift distributorships such as; Load Platforms and Ramps, Automatic and Manual Parking Systems, Battery Tractors, Pickup Trucks and Trailers, Personnel Platforms.

ÖZNUR SAVUNMA --- (TÜRKİYE)

www.oznursavunma.com.tr

Öznur Defense/Aerospace has extended its customer and product portfolio based on cutting-edge-technology since it was established and has continued its machinery and spare parts manufacturing operations for the defense, aerospace and automotive industry. Land and sea platforms: antenna, radar, integrated turret systems, chassis mechanical production and installation. Civil aviation: mechanical production and installation.

PAVOTEK --- (TÜRKİYE)

www.pavotek.com.tr

Pavotek design and produce first-class electronic and embedded system solutions even the most challenging customer requirements. Our solutions include IP network communication devices, communication / control systems, power transmission / distribution units, unmanned avionics systems, and energy distribution systems with excellent energy efficiency.

PCS OTOMASYON --- (TÜRKİYE)

www.pcs.com.tr

PCS is an organization specialized in test systems engineering, design, installation and software development activities, primarily engine (internal combustion, electric, hybrid) and transmission test systems.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

PRESIDENCY OF THE REPUBLIC OF TÜRKİYE DEFENCE INDUSTRY AGENCY (SSB) --- (TÜRKİYE)

www.ssb.gov.tr

SSB is a civil state organization established to strengthen the national defense industry of the Turkish state and to manage the procurement processes of military systems and technologies at the same time.

PROFORCE DEFENCE --- (NIGERIA)

www.proforcedefence.com

Armoured Personnel Carriers (APCs), Armoured Tanks, Armoured Cash-In-Transit Vehicles (CITs), Armoured SUVs, Tactical Armoured Vehicles (TAVs), Unmanned Aerial Vehicles (UAV-Drones), Armoured Saloons and Sedans, Bulletproof Helmets and Vests, Military Trucks, Infantry Combat Vehicles (ICVs), Armoured Boats and Marine Vessels, Architectural Armouring (safe houses/rooms e.g. for banks and embassies).

PROMECC --- (TÜRKİYE)

www.promec.com.tr

Mechanical design, electromechanical system design, special purpose test rigs, vibration, acceleration, Stewart, Halt, Collimator test fixtures design, onboard platform designs, electronic box designs, machining, electronic hardware design, embedded system software, test system design, wiring and system integration are among our main areas of work.

RHEINMETALL- WEAPON AND AMMUNITION DIVISION --- (GERMANY)

www.rheinmetall-defence.com

Rheinmetall's Weapon and Ammunition division is a global industry leader who is highly experienced in mastering the entire weapon and ammunition system. The division focuses on capabilities spanning large and medium calibre weapons and munitions, protection systems, propulsion systems, charge systems and propellant powders. Rheinmetall successfully combines world-class gun, ammunition, charge and fuse technologies to offer precise and effective solutions against enemy threats. The main armament of the Leopard 2 – the world's most effective tank –, the PzH 2000* self-propelled howitzer system, and an innovative new generation of enhanced range ammunition are just a few of the cutting edge products made by Rheinmetall. Moreover, Rheinmetall has been active in the field of laser weapon systems for many years. In the world of laser weapon stations and laser sources, Rheinmetall has laid the foundation for a future 100kW laser weapon system, demonstrating its fundamental feasibility.

RHEINMETALL AIR DEFENCE --- (ITALY)

ROKETSAN --- (TÜRKİYE)

www.roketsan.com.tr

Roketsan is a leading company in the country for designing, developing and manufacturing rockets and missiles for Land Systems, Air Defence Systems, Naval Systems, Precision Guided Systems, Space Systems, Ballistic Protection Systems and Subsystems.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

ROMAERO SA --- (ROMANIA)

www.romaero.com

Romaero is a Romanian aerospace company, headquartered in the Băneasa neighborhood of Bucharest. In recent years, it has largely concentrated on aircraft repairs as well as component manufacturing for overseas companies.

ROYAL AIRCRAFT MAINTENANCE COMPANY --- (UAE)

www.royalmro.com

We provide Line Maintenance, support AOG, and supply aircraft parts, consumables, and more from our warehouses in DXB & DWC as well as other airports. We focus to deliver reliable, responsive, and innovative aviation services/solutions at competitive prices. We are the only line maintenance company at DXB/DWC with capability to perform Engine borescope and Engine Change. We hold necessary ground equipment, special tools, engine stands, and engine slings within our facility.

RUAG --- (SWITZERLAND)

www.ruag.com

As a leading supplier of space technology in Europe, RUAG Space develops, manufactures and tests subsystems and equipment for satellites and launch vehicles. From locations in Switzerland, Sweden and Austria RUAG's space division offers a comprehensive portfolio of products and services for institutional and commercial space missions.

SAĞLAM METAL --- (TÜRKİYE)

www.saglammetal.com

We produce high quality, special aluminum bronzes and hard copper alloys. Our manufacturing processes: Casting (Centrifugal Casting, Continuous Casting, Model Casting, Mould Casting), Forging, Heat Treatment, Cutting and Machining. We also produce aircraft landing gear bushing materials, materials used in marine platform and sonar system.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

SAMEL 90 --- (BULGARIA)

www.same190.com

LED Lighting, IED Jammers, Artillery Jammers, Command Post Vehicles, Intercome Systems, Switches and Switchboards, VHF portable radios, Field Telephone sets, MANPAD Launchers, Ground radars, Mechanical parts, Tooling, Piezoelectric parts, Ferrite components, Steatite ceramic parts, Transformers, Coils, Chokes, Cable Harnesses, Amplifiers, Connectors, Fittings, Injection Moulding components, Die casting tools, Punching instruments, etc.

SASAD --- (TÜRKİYE)

www.sasad.org.tr

SASAD coordinates with the needs and supply of the authorities, providing platforms that will strengthen cooperation and create synergy among the stakeholders of the sector.

SEABURRY SECURITIES --- (FRANCE)

www.seaburycapital.com

Leveraging Seabury Capital Group's 25-year history of advising hundreds of key clients in the airline, aircraft leasing, OEM, and defense supply chain, Seabury Securities is the industry's leading practice delivering global investment banking and restructuring capabilities focused on Aviation and Aerospace & Defense.

SECANT --- (TÜRKİYE)

www.secantglobal.com

Tactical wheeled vehicle and platform design, armor modernization, additional armor (add-on) solutions, spall liner solutions, ballistic solutions, submarine acoustic radome structures, composite reflector systems, sensitive equipment handling and storage systems (auxiliary system for the transport of missile, weapon etc.), manufacturing of composite parts used in aviation.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

SEFİNE SHIPYARD --- (TÜRKİYE)

www.sefine.com.tr

Founded in 2005 and occupying over 140.000 m2 of land for newbuilding, repair-maintenance and conversion, Sefine Shipyard is one of the leading establishments in Yalova region with over 4000 yard employees including subcontractor personnel. The shipyard is able to undertake ship repair services up to 90.000 DWT on its Post-Panamax size graving dock and up to 120.000 DWT on its Aframax size floating dock. On the other hand, Sefine has the technical ability and physical capacity to perform new building of various types of ships such as General Cargo Vessels, Double Ended Car & Passenger Ferries, Offshore Vessels, Search & Rescue Boats, AHTs, Tug Boats and Live Fish Carriers.

SENEGALESE AIRFORCES --- (SENEGAL)

SERVO SAVUNMA --- (TÜRKİYE)

www.servosavunma.com.tr

Provides professional marketing and sales services to defense contractors. Working relationships with clients are generally based on representation or consultancy agreements. Our services include representation of product portfolios for each client, customer relations, contract management and offset management. We communicate daily with our customers and help capture business on behalf of our clients in respective fields.

SIEMENS --- (GERMANY)

www.sw.siemens.com

We blur the boundaries between industry domains by integrating the virtual and physical, hardware and software, design and manufacturing worlds. Our customers partner with us to access the best-in-class digital solutions that foster innovation. This leads to improved time-to-market, reduced production costs, better collaboration and increased efficiencies.

OCTOBER 12-14, 2022 ANKARA, TÜRKİYE

Supported by

SIMSOFT --- (TÜRKİYE)

www.simsoft.com.tr

Simsoft, which currently has a CMMI Level 3 certificate for its high-standard project management processes, operates under four main groups: Simulators, Defense & Aerospace Systems, Visual Systems, and Gaming & Simulation. Each group strives to develop advanced technology services and products in its expertise area with its local and national infrastructure.

SKYMARK --- (TÜRKİYE)

www.skymark.com.tr

Manufacturing of structural detail parts and their assemblies to the aerospace industry, system design and manufacturing.

SOLUNOX PVT. LTD. --- (PAKISTAN)

www.solunox.com

Company started its business with multifaceted mandate to undertake Research & Development projects in dual technologies used in Aerospace and Maritime. SoluNox Pvt Ltd is the 1st company in Pakistan Pvt Sector to develop its maritime and aerospace design house. SoluNox UAV Solutions & Launching System has the expertise in design and development of fourth generation launching systems for High Mass and High Speed Target Drones. Whereas, high performance drones are being designed and developed through foreign collaboration. SoluNox is using its expertise in commercial applications as well like pesticide spraying, reconnaissance and survey, underwater and offshore systems.

SPECIAL COMMUNICATION AND INFORMATION SECURITY STATE SERVICE --- (AZERBAIJAN)

www.cert.gov.az

STATE CORPORATION KYRGYZKURAL --- (KYRGYZSTAN)

Kyrgyzkural manages import and export processes for the supply of semi-finished products, finished products, and integration studies needed in the defense and aerospace sectors in Kyrgyzstan.
